

Plant Machinery Recovered in Poland

The vehicle was reported as stolen to Smartrack's Control Centre early one morning the control centre then started to trace the vehicle. Having found out the vehicle was in Europe the Control centre then called Interpol reporting the vehicle was in Germany we then watched the vehicle go across Europe into Poland which then Interpol liaised with the local police and gave our contact details the Polish Authorities then they called us and asked for updated locations, we then liaised with the Polish Police to have the vehicle Recovered.

Look out for the new META CAT5 Product early part of 2010
